

I'll be firing Protons

by Andy "Dijon" French.

Tune based upon Shotgun by George Ezra

Capo 5th Fret. Otherwise guitar tuning EADGBE

Slow single chord strum, let ring, intro

C F Am G

C F
A particle creator, is this, (*quick pause*) accelerator

Am G
It's Swiss, and made in France

C
It's twenty seven kilometers long

F
And buried as deep as a submarine's long

Am G
You can see a Higgs with this!

Pre-chorus

C F
Time dilates when you're going real fast

Am G
When you whizz round the ring that's at CERN

C F
There's a whole lot to see, above ten T-e-V

Am G
And Nobel prizes to earn

Chorus

C
I'll be firing protons

F
And other heavy ions

Am G
Two quarks make a pion

C
I'll be firing protons

F
Might get pairs of photons

Am G
Gluons and some bosons

C
We've got magnets and helium-4

F
Otherwise our beams won't be circles no more

Am G
We're almost at, the speed of light

C
Charges in a bunch of billions

F
A wattage of two hundred million

Am G
A lot of taxes pay for this!

Pre-Chorus

C F
Time dilates when you're going real fast

.....

Chorus

C
I'll be firing protons

.....

Bridge

C
It starts in a tank

F
of hydrogen, red

Am
No smoking here

G
Or you'll end up dead...

Pre-Chorus

C F
Time dilates when you're going real fast

.....

Chorus

C
I'll be firing protons

.....

Repeat Chorus again, then accapella, then again twice

C
I'll be firing protons (End)
