

The Elements by Tom Lehrer

Strumming: Hit the base note and then strum the chord.

Intro: D D A7 D D A7

D
There's antimony, arsenic, aluminum, selenium,
A7
And hydrogen and oxygen and nitrogen and rhenium,
D
And nickel, neodymium, neptunium, germanium,
A E7 A
And iron, americium, ruthenium, uranium,

A7 Dm
Europium, zirconium, lutetium, vanadium,
C7 F
And lanthanum and osmium and astatine and radium,
A Dm
And gold and protactinium and indium and gallium...
Bb7 A7
And iodine and thorium and thulium and thallium!

D
There's yttrium, ytterbium, actinium, rubidium,
A7
And boron, gadolinium, niobium, iridium,

D A7 D A7
And strontium and silicon and silver and samarium,
D G A7 D
And bismuth, bromine, lithium, beryllium, and barium.

I hope you're all taking notes, because there's going to be a short quiz next period.

D
There's holmium and helium and hafnium and erbium,
A7
And phosphorus and francium and fluorine and terbium,
D
And manganese and mercury, molybdenum, magnesium,
A E7 A
Dysprosium and scandium and cerium and cesium.

A Dm
And lead, praseodymium, and platinum, plutonium,
C7 F
Palladium, promethium, potassium, polonium,
A Dm
And tantalum, technetium, titanium, tellurium,
Bb7 A7
And cadmium and calcium and chromium and curium.

D
There's sulfur, californium, and fermium, berkelium,
A7
And also mendelevium, einsteinium, nobelium,
D A7 D A7
And argon, krypton, neon, radon, xenon, zinc, and rhodium,
D G A7
And chlorine, carbon, cobalt, copper, tungsten, tin, and
D
sodium.

(My ending!)

D D A7
These are the only ones, which were known to Lehrer
D G D A7
Now there are some others, so this song compounds this
D
error

D A7 D A7 D
