G Em C Am

G  
There is a cat called Sybil  
Em  
she's a really naughty beast  
C  
she leaps up on the table  
Am  
in the middle of a feast  
Eb

She has a pal called Merlin  
Cm  
Who pops in to eat for free  
Eb  
But he's a big old grumpy sod  
Cm  
I don't what she sees  
Eb

she sometimes brings us presents  
C  
of slugs and small mousies

G  
(I often) wake to hear her pawing  
Em  
(pause) at the kitchen door  
C  
we tried to feed her biscuits  
F  
but she don't like 'em no more  
G Em  
We all love cats (we love cats)  
G Em  
We all love cats (we love cats)

G  
Our puss is black and rather large  
Em  
she isn't very smart  
C  
but her big 'old saucer eyes  
Am  
will melt the hardest heart  
Eb  
She sleeps above the fridge  
Cm  
Or the wardrobe way up high  
Eb  
I wonder what she thinks of us  
Cm  
We busy little flies  
Eb  
Does she really love us  
C  
Would she eat us if we died?

G  
She has a little goatee  
Em  
like Cardinal Richelieu  
C  
That little brain is making plans  
F  
To rule the world via you  
G Em  
We all love cats (we love cats)  
G Em  
We all love cats (we love cats)

G  
If you let her out before  
Em  
sleep is at an end  
C  
she will climb on you  
Am  
and her body will extend

Eb  
Her paws stretch to your legs  
Cm  
Her tail is near your nose  
Eb  
If you are into yoga  
Cm  
It's a pretty epic pose  
Eb  
How long will she stretch out?  
C  
It's an answer no one knows

G  
When I greet her there's a ritual  
Em  
She collapses on the floor  
C  
I stroke her then she bites me then  
F  
I don't stroke her no more  
G Em  
We all love cats (we love cats)  
G Em  
We all love cats (we love cats)

G  
We have a laser pointer  
Em  
And we shine it on the ground  
C  
She likes to think about it  
Am  
before she chases it around  
Eb  
But her favourite is a woolly mouse  
Cm  
she places it with care  
Eb  
she has a special meow  
Cm  
when she drops in on the stairs  
Eb  
But occasionally it's real  
C  
And that's when we despair

(slower!)

G  
She's a purry little creature  
Em  
is my little puss  
C  
She's like a dog, a wife or kid  
F  
But nowhere near the fuss (!)  
G Em  
We all love cats (we love cats)  
G Em  
We all love cats (we love cats)  
G Em  
We all love cats (we love cats)  
G Em  
We all love cats (we love cats)  
Meow
